In this connection the Registrar placed before the Meeting G. O. No. 1230/XV, dated 9th December, 1910, observing that it is supposed that the preliminary examination for admission to the Lucknow Medical College will include Biology amongst the subjects, and remarking that as provision has not yet been made in all Colleges for the teaching of Biology, the effect of the inclusion of that subject will limit admission of students to the College to students from the institutions in which Biology is taught, whereas it is desirable that students from all Colleges should have opportunities of entering the Medical College and asking the University to take into their consideration the question of how this object could best be attained.

## APPENDIX B.

*Minutes of a Meeting of the Building Sub-Committee held at the University Buildings on January 30th, 1911, at 8 a.m.*

## MEMBERS PRESENT.

The Vice-Chancellor.

Hon'ble Rai Pandit Sunder Lal Bahadur, C.I.E.

Sir G. E. Knox, Convener, and Mr. Oertel by invitation.

The Sub-Committee after inspecting the alignment of a new road which it was proposed to make through the University property into Church Road, found it impossible to recommend a public road which would pass so close to the Law College as to be within ten feet of its northern wall. They propose as an alternative that the public road pass more or less along the alignment of the present Pioneer Road. This road as it at present runs is not wide enough for the traffic that is sure to pass along it and comes too close, *viz.*, within 48 feet of the new Library buildings. To remedy these defects as far as possible, they recommend that the opportunity be taken to carry the present alignment somewhat to the south of where it now runs. This will involve taking up a portion of the Oxford and Cambridge Hostel property, and dismantling certain out-houses (the removal of which is in any case desirable).

The Oxford and Cambridge Hostel would they understand consider the proposal favourably, if they were given compensation in the shape of ground between the proposed new road at the back of their property and their present compound, and some pecuniary compensation for the out-houses which would be dismantled. The Sub-Committee recommend this change strongly to the Syndicate.

They recommend that the Foundation Stone be lifted from its present position and fixed in the Verandah adjoining the southern porch.

They suggest to the Syndicate the advisability of approaching His Majesty the King-Emperor for the grant of a coat-of-arms to the University.

They recommend—

- (i) that open iron racks with iron shelves as used in the Secretariat be placed in the several office rooms,
- (ii) iron stands one foot high for placing examination boxes on be placed all round the basement rooms,
- (iii) plugs for hat racks be inserted in the waiting and retiring rooms, offices and lavatories,
- (iv) iron safes for the Registrar's office be built into the wall,
- (v) that the Electrical Engineer to Government be asked how far it is probable that electricity will be available in or near Church Road with a view to the consideration of hole being provided in the walls for electric communications and to the decision of what rooms should be provided with electric lights and fans;
- (vi) that if there is no immediate probability of electricity being available in the near future the Public Works Department make the necessary arrangement for the providing of ordinary punkah in Committee rooms, offices and waiting and retiring rooms.

The Board recommend that in case the Senate accept the proposal making Vernacular compulsory on all Matriculation candidates, it is only the third paper that should be so compulsory ; the other two papers being intended for those only who offer the Vernacular as an optional subject.

42. The Minutes of the Meeting of the Syndicate held on 31st January, 1911, were confirmed.

43. Contingent and other bills for the months of January, 1911, were passed (*vide* Appendix A).

44. Under regulation 9, Chapter V of the University Regulations, the Meeting confirmed the nominations of Examiners for the Arts and Science examinations, including

the Matriculation examination of 1912, with the following instructions:—

- (i) that the Registrar be asked to note for the information of the Syndicate the names of examiners who have more than one paper to correct, and
- (ii) that if in any case regulation 8, Chapter V of the University Regulations, has not been observed, the list be returned to the Board of Examiners concerned for necessary amendment in compliance with the regulations.

45. The Meeting proceeded to fix the dates for the University examinations of 1912.

It was *resolved*—

- (i) that the Intermediate and the Matriculation examinations commence on Monday, the 18th March, 1912, beginning at 10 A.M. each day, one paper as far as possible being given daily in the Intermediate and two papers daily in the Matriculation examination ;
- (ii) that the Degrees (Arts and Science) examinations commence on Monday, the 1st April, 1912, beginning at 7 A.M. each day, one paper as far as possible being given daily ;
- (iii) that the Previous and Final LLB. examinations commence on Monday, the 29th April, 1912, beginning at 7 A.M. each day, one paper as far as possible being given daily ;
- (iv) that the L. T. examination commence on Monday, the 8th April, 1912, beginning at 7 A.M. each day, one paper being given daily.

46. Under regulation 25, Chapter I of the University Regulations, the Registrar placed before the Meeting the Agenda for the Meeting of the Senate to be held on the 10th March, 1911, together with the proposals and amendments received.

It was *resolved* that the *Agenda*, together with the proposals and amendments received, be accepted and sent on to the Senate.

47. The Registrar placed before the Meeting the following recommendations of the Board of Inspectors :—

- (1) That the Board of Inspectors has considered the letter of Mr. Garfield Williams, Professor of Science, St. John's College, Agra, and is unable to recommend an extension of the affiliation of St. John's College, Agra, up to the B.Sc. standard until the College has actually made adequate arrangements for teaching up to that standard ;
- (2) that the Hislop College, Nagpur, be permanently affiliated in *Biology* up to the B.Sc. standard ;
- (3) that the Canadian Mission College, Indore, be affiliated up to the M.A. standard in *Philosophy*. The local enquiry having been made ;
- (4) that in respect of the application of the M. A.-O. College, Aligarh, for affiliation up to the Intermediate examination in *General Biology*, Dr. Imms be asked to make the local enquiry under section 21 (2) (a) of the Indian Universities Act of 1904 ;
- (5) that with reference to the application of the Isabella Thoburn College, Lucknow, asking (1) that the Isabella Thoburn College be affiliated

up to the B.Sc. standard, on condition that students for that examination be allowed to attend the Science classes at the Reid Christian College while taking the other subjects at the Isabella Thoburn College; and (2) that such students be sent up for the examination from the Isabella Thoburn College, the Principal may in reply be told that the affiliation of the Isabella Thoburn College up to the B.Sc. standard need not be considered, as the College is at liberty to send its students to attend lectures and undergo a course of practical instruction at the Reid Christian College, provided that such a course of scientific study fulfils the conditions required by the University regulations ;

- (6) that in respect of the application of the Medical College, Lucknow, for affiliation up to the M.B. standard, it may be pointed out that up to the present time no degree in Medicine has been instituted, and that therefore they are unable to deal with the application of the Medical College for affiliation, but the Board would recommend that special grace be sought of the Senate to enable the Principal of the Medical College to enter students as registered Medical students from the commencement of the session.

It was resolved—

- (a) that the recommendation in respect of the St. John's College be adopted ;
- (b) that recommendation be made to the Senate that the Hislop College, Nagpur, be permanently affiliated in *Biology* up to the B.Sc. standard ;

- (c) that recommendation be made to the Senate that the Canadian Mission College, Indore, be affiliated up to the M.A. standard in *Philosophy*;
- (d) that the recommendation regarding the inspection of M. A.-O. College, Aligarh, be accepted;
- (e) that the proposal regarding the Isabella Thoburn College be adopted;
- (f) that the proposal regarding the students of the Medical College be submitted to the Senate.

48. On the recommendation of the Sub-Committee concerned, it was *resolved*—

- (a) that the Rajnandgaon High School be recognised for purposes of Matriculation Examination in *Urdu* and *Hindi* as optional subjects, in addition to those sanctioned by Syndicate Resolution No. 240 (a), dated the 9th December, 1910;
- (b) that the Colvin School, Mahmudabad, District Sitapur, be provisionally recognised for purposes of the Matriculation Examination, for a period of two years with the optional subjects *Arabic*; *Persian with Arabic*, *Sanskrit* and *Drawing*. In the opinion of the Syndicate the salaries offered are rather low for a High School, particularly in the case of the Head Master, and it hopes that before an application is made for permanent recognition the School authorities will see their way to improve the pay of the teachers;
- (c) that the attention of the authorities of High School, Hinganghat, be drawn to Syndicate

resolution No. 182 (b), dated the 15th November, 1909, and they should be asked whether they propose to make a fresh application for recognition. If so, the application for recognition in Science will be considered in connection therewith.

49. The Registrar placed before the Meeting the cases of certain students recommended by the Principals of Colleges and Head Masters of Schools for the relaxation of rule requiring 75 per cent. of attendance, which they failed to put in on account of illness.

It was *resolved* that the Registrar be empowered to deal with the applications in accordance with the principles laid down by the Syndicate in its resolution No. 12 (a), dated the 31st January, 1911.

50. With reference to Syndicate resolution No. 227, dated the 14th November, 1910, the Registrar placed before the Meeting a letter, dated 13th February, 1911, from the Principal, St. Peter's College, Agra, tendering the resignation of the affiliation of St. Peter's College to this University.

It was *resolved* that the letter be recorded.

51. With reference to Syndicate resolution No. 26, dated 31st January, 1911, the question of appointment of Inspectors of Law Colleges, under regulation 12 (d), Chapter II, of the University Regulations, was considered.

The Meeting also considered the resignation of the Lord Bishop of Lucknow from the Board of Inspectors.

It was *resolved* that the Hon'ble Sir George E. Knox and the Hon'ble Rai Sundar Lal Bahadur, be appointed Inspectors of Law Colleges, and Rev. A. Crosthwaite be appointed a member of the Board of Inspectors, for Arts and Science Colleges.

52. With reference to Senate resolution No. XXXV(h), dated 11th November, 1910, the Registrar placed before the Meeting the following proposal of Mr. Ward:—

“That section 14, Chapter XII, of the Regulations, be amended by the addition of the following clause:—

“The names of those who have passed the B.A. or B.Sc. Examinations shall be published in two respective lists, arranged alphabetically, with a marginal reference giving the College to which the candidate belonged, and the optional subjects in which he has passed. Separate lists referring to individual subjects, *e.g.*, English, Sanskrit, Mathematics, Chemistry, etc., shall also be published containing the names of successful candidates considered by the examiners worthy of a first or second class in these individual subjects.”

It was *resolved* that Mr. Ward be asked to elaborate his scheme, so that it may be printed and circulated to Principals of Colleges for their opinion.

53. With reference to Syndicate resolution No. 202, dated 14th November, 1910, it was *resolved* that the consideration of the report of the Sub-Committee appointed by Syndicate resolution No. 51, dated 9th November, 1907, in reference to the report on the B.A. Philosophy results of 1910 be deferred until the proposal in the preceding resolution has been settled.

54. With reference to the Syndicate resolution No. 30, dated the 31st January, 1911, the Meeting considered the report of the Sub-Committee appointed by Syndicate resolution No. 131 (d), dated 11th August, 1910, to draw up a suitable inscription for the University Buildings (*vide* Appendix B).

It was *resolved* that the report be adopted.

55. The Registrar placed before the Meeting an application from the candidates for the next LL.B. Examin-

ation, praying that the date of the Law Examination may be postponed for a fortnight to give them sufficient time after the completion of the M.A. Examination for the preparation of Law courses.

It was *resolved* that the application be *not* granted.

56. The Registrar placed before the Meeting a letter, dated 18th February, 1911, from the Inspector of Schools, Meerut Division, forwarding the application of Srimati Devi for permission to appear as a private candidate at the Matriculation Examination of 1911, under regulation 14, Chapter XIII, of the University Regulations.

It was *resolved* that the application be *granted*.

59. With reference to Syndicate resolution No. 36, dated the 31st January, 1911, the Registrar placed before the Meeting a telegram, dated the 3rd March, 1911, from the Deputy Commissioner of Khandwa, asking that in view of there being plague in Indore and Hoshangabad, Khandwa may be declared a centre of examination for the local candidates.

In this connection the Registrar also placed before the Meeting certain other telegrams asking that centres of examinations may be changed on account of plague.

It was *resolved* that the Registrar be instructed to reply that the Syndicate regret that arrangements for the examinations are now too far advanced for any change to be made.

60. The Registrar placed before the Meeting an application, dated the 2nd March, 1911, from Bijai Bahadur Singh, a student of the 2nd Year Class, forwarded and recommended by the Principal, Christ Church College, Cawnpore, asking that he may for special reasons be exempted from taking Physiology in the next Intermediate Examination.

It was *resolved* that the application be *not* granted.

61. The Registrar placed before the Meeting an application, dated the 6th March, 1911, from M. Bhawanishanker Niyogi, a private candidate for the next M.A. Final examination in History, asking that in the special circumstances of his case, arrangements may be made for a paper in Greek History.

It was *resolved* that the application be sanctioned as a special case.

62. With reference to Syndicate resolution No. 11, dated 31st January, 1911, regarding the consideration of the rules

governing the admission of students to the Medical College, Lucknow, Dr. Hill pointed out that the College is not affiliated to the University, and that in any case the University is not concerned with rules for admission to Colleges. In making his proposal Mr. de la Fosse referred to the history of the efforts made in the United Provinces to introduce commercial instruction and also to the reasons which had induced him to bring the present proposal before the Senate. The subject of commercial instruction, he said, was first discussed by the Education Commission of 1883 and that Commission recommended that there should be a course in commerce in high schools for the benefit of those who had no wish to proceed with the usual University course.

Nothing was however done in the United Provinces for some time, but eventually the University started a commercial examination of its own, which was a sort of science side of the entrance examination. In the school-leaving examination in deference to those suggestions a commercial test was introduced, but the matter was taken up in a somewhat half-hearted manner, and all that was necessary for the student to do was to study a small and somewhat out-of-date manual on the subject of book-keeping and there was no necessity to put his knowledge into application. Subsequently when the University was reformed in consequence of the recommendations of the Universities Commission and the Universities Act, the school-final examination and the entrance examination were amalgamated with the matriculation examinations and in the process book-keeping and commercial education both disappeared from the course. In 1903 a scheme was brought forward for a lower and higher course in commerce which, after some discussion, was indefinitely postponed, there being apparently no chance of obtaining the support of the University to the scheme. Later on a further heroic effort was made by Dr. Thibaut to induce the University to concern itself with practical subjects, and commerce was instanced as one of the subjects which the University might include in its course. Despite the well-reasoned and eloquent arguments of the proposer, however, the proposal was defeated, and from that time forward the subject had entirely dropped out of the discussions at the meetings of the Senate. It might seem somewhat presumptuous for him (Mr. de la Fosse) after the previous failures to bring up the matter again, but he was in hopes that circumstances had in the interval changed. The interest which the public were now taking in commercial subjects and commercial instruction provided his reason for thinking that the symptoms were at present more favourable.

It would be remembered that the Universities Commission gave it as their opinion that there was an evident demand in some of the provinces for instruction of that kind, and they made definite recommendations that Local Governments and Universities should concern themselves with the fostering of commercial instruction. The Government of the United Provinces had played its part. It had established in connection with the school-final examination a course in commerce. It now remained for the University to enable the students who had passed through that course to carry their knowledge a stage further. In a Convocation address the Chancellor had referred to the matter, remarking that it was a subject of personal regret that the University had made no attempt to adopt the recommendations of the Universities Commission.

So much for the history of the subject. The popularity of the commercial course in the school-leaving examination was clearly shown by the fact that there was a brisk demand for those who had had some commercial training. It had also been shown that two years at school provided an insufficient length of time for the student to complete that training, and those who were interested in the improvement of commercial knowledge had been considering how to arrange in the best way for a further course in commerce. In the school-leaving examination this year 166 students took up commerce. What had become of the majority? Most of them no doubt had left with incomplete equipment, but a great many had proceeded into the business departments which had sprung up in the United Provinces in response to the demand. The Reid Christian College and St. John's College, Agra, had been somewhat handicapped in their work by there not being some diploma to show the public that the students had had further studies at the end of their two years' course, and they would like that the

University rather than Government should establish an examination for a diploma. He (Mr. de la Fosse) had made certain enquiries amongst students at those institutions and he had found that they too would welcome the establishment of a diploma as an acknowledgment of the work that they had done in the higher stage, with the school-leaving examination as the foundation. With the growth of industrial enterprise in the Province he (Mr. de la Fosse) had not the smallest doubt but that the certificate examination which he now proposed would, if accepted by the University, be a great success and would pay its own way. Turning to the present scheme Mr. de la Fosse said that it was unnecessary to refer to the course of the school-leaving certificate in order to explain that the present proposal was really for an extension of the work done for that certificate. They would notice that the subjects mentioned were subjects which appeared in the school-leaving certificate examination and which must be carried a stage further, if the students were to be in a position to turn their knowledge to good account. It would be noticed that he had added shorthand. Shorthand was not taught in the schools because it had been found that the boys had at that stage an insufficient knowledge of English to benefit by a course of shorthand. The latter subject was absolutely necessary for anybody who wanted to work in business in a subordinate position or as a clerk. Although it might seem a utilitarian subject, it would be fatal to exclude it. There were other subjects of a more cultural kind. The aim was to make the course as practical as possible, but in the University it was proposed to add subjects which required intelligent study, such as commercial history and industrial organisation. It had been suggested to him (Mr. de la Fosse) that this proposal was more likely to be accepted if he were to emphasise the cultural side at the expense of the practical. He would

rather lose his proposal altogether than represent in any way which it was not. He wanted to turn out men of practical value. He knew that there were many persons who considered that a University should not concern itself with utilitarian training, but should aim solely at the cultural. With that opinion he had considerable sympathy, but he would point out to the idealists that the Universities in England and America had thought fit to cater for the class of students who could not afford to study entirely with cultural aims. London University was the first to start. It was shortly followed by Birmingham and then by Leeds, Manchester and other universities. They, in the United Provinces, had a high example for introducing commercial instruction, for Oxford University, most conservative of institutions, was now considering the provision of lectures in commerce for the benefit of those students who would afterwards have to go into business, and it also proposed to give a certificate or diploma. At present he (Mr. de la Fosse) was not proposing that they should have a degree in commerce. He did not think that they had reached the stage when such a degree would be really of value to students. What he was aiming at was a practical course which would enable young men to get openings in business readily and enable those who had studied as far as the high school stage to carry their knowledge a step further. It might be that some one might say, why should the University do this and not Government? He was strongly of opinion that commerce was a subject that should come within the scope of a modern University, and he was sure that those who studied for the higher course in commerce would prefer a University certificate rather than that Government should undertake it. It was surely a subject with which their University should concern itself, for it was a modern University. Mr. de la Fosse concluded with a further quotation from the Convocation speech of the

Chancellor to the effect that Universities were essentially universities of the people and that it was their duty to provide a course suited to the activities of the people.

Mr. Crosthwaite at the conclusion of Mr. de la Fosse's speech rose to a point of order. A similar proposal had been previously referred to the Faculty of Arts, but it had not been considered, why he could not understand. Was the present resolution in order?

Mr. de la Fosse: I am not deprived of my right as a Fellow of the University to address the Senate.

The Vice-Chancellor ruled that Mr. de la Fosse's resolution was in order.

Mr. Jesse seconded the resolution and spoke at length on the advantages and desirability of instituting a University course in commercial subjects.

The Lord Bishop of Lucknow while agreeing that it was desirable that examinations in commercial subjects should be held, raised the point of the expense which would be incurred by the University in conducting such examinations.

Mr. G. N. Chakravarti, speaking in support of the resolution, said that at a Meeting of the Syndicate the question of expense was considered and the conclusion was arrived at, that it was very likely the examination would pay its own way. He referred to what was being done by other Universities toward the establishment of the Faculties of Commerce, and said that it was very necessary that industrial organisation and similar subjects should be taught and that industrial development should be aided.

The Rev. Mr. Haythornthwaite speaking in support of the proposal referred to past efforts which had been made to institute commercial courses. He said that if such course

as was at present suggested was decided upon, there would be a considerable influx of students, who would be quite prepared to pay fees, if the training were of a higher character. He could not help feeling that with the amount of development in the way of industrial organisation that had begun and which would continue to advance, it was the duty of every University to provide a practical course of the character suggested. He trusted that Allahabad University would lead the way or follow gladly to such an end.

The Rev. Crosthwaite said that he felt that they were considering a very serious matter. Personally he looked at the question with profound dislike. The matter had been "rushed through," and it would be much better to have a prolonged discussion on its merits and demerits. There was, too, the possible financial difficulty.

In reply to Dr. Ewing, Mr. de la Fosse said that it was intended that there should be a special commercial examination. The object in having a College course was to associate the students with University life. He did not think it desirable that they should remain at school after having passed the age of school boys.

Mr. Cameron said he felt that the time had come when Universities should recognise commerce—and in the manner at present suggested. One practical difficulty presented itself to him—he had grave doubts in regard to such subjects as shorthand, accountancy, etc., whether they had gentlemen able to conduct examinations. Were they to create a separate Board of Examiners or were the Boards of Studies going to take the question under their wing?

Mr. Carey asked if any reference had been made to Chambers of Commerce. He thought that commercial men often felt that theoretical knowledge was not business know-

ledge. The question was the value of the education. They all agreed that there should be education in commerce, but he felt that they did not know for certain if they had the means or ability to carry out the proposal successfully.

Replying to questions Mr. de la Fosse said that the course at English Universities was on a different plane from that which he had suggested. The English Universities had gone a step further and established degrees. The reason why in India it was not necessary to go so far was that business organization was in its infancy. With regard to the questions of whether they had people capable of conducting the examinations, he presumed that Mr. Cameron referred to the gentlemen around that table. That placed him (Mr. de la Fosse) in an awkward position in replying. He could assure Mr. Cameron that it would be very easy for the Faculty of Commerce to obtain expert advice or even to co-opt certain persons with special knowledge in commerce. There were such people in those Provinces or they could be obtained from outside.

Replying to Mr. Carey, Mr. de la Fosse said that Chambers of Commerce would welcome the establishment of a higher course in commerce, as at present students did not attain a sufficiently high standard.

Mr. de la Fosse's motion was *carried* practically unanimously.

VIII.—The Meeting proceeded to consider the following proposals under clause (iii) of regulation 18, Chapter I, of the University Regulations:—

(i) *Proposal* by Mr. P. S. Burrell:—

I.—To be added to Chapter XIII—

“Notwithstanding anything in the foregoing regulations any student, who has once failed in the Matriculation

Examination, for which he has appeared as a school candidate, may be allowed to appear in future years as a private candidate on payment of the fee without having to comply with the conditions stated in regulations 9, 10, 11, 12 of this Chapter."

II.—To be added to Chapters XV and XVIII respectively—

"Any person, who has once failed in the Examination for the B.A. or B.Sc. degree for which he has appeared at the conclusion of two years' study in an affiliated College, may be allowed to appear in future years as a private candidate on payment of the fee."

In this connection Mr. Jesse proposed the following amendment:—

A. "That Proposal No. I be amended to read as follows:—

"To be added to Chapter XIII—

"Notwithstanding anything in the foregoing regulations any student, *who has completed a regular course of study for not less than three years in the High Section of a recognised school, and who has once failed, etc.*"

B. "That Proposal No. II be amended to read as follows:—

"To be added to Chapters XV and XVIII respectively:—

"Any person, *who has completed a regular course of study at an affiliated College for not less than three academical years after passing the Intermediate Examination, and who has once failed for the B.A. or B.Sc. degree, etc.*"

After a lengthy discussion in which many conflicting opinions were expressed ; on the motion of Dr. Hill, it was *resolved* that the Meeting pass to the next business on the Agenda.

(ii) *Proposal* by the Rev. Dr. Ewing :—

That the following regulations be added to Chapters XX and XVII :—

"I.—Add to Chapter XX of the University Regulations a new section as follows :—

4. A candidate who has been found qualified for the degree of Doctor of Science shall pay to the University through the Registrar the sum of Rupees one hundred and fifty (Rs. 150) for the diploma of the said degree.

II.—Add to Chapter XVII of the University Regulations a new section, thus :—

3. A candidate who has been found qualified for the degree of Doctor of Letters shall pay to the University through the Registrar the sum of Rupees two hundred (Rs. 200) for the diploma of the said degree."

The proposals were seconded by Mr. Gardner Brown and *carried*.

(iii) *Proposal* by Dr. Ganga Nath Jha :—

I.—That in Chapter XII, section 3, after sub-section (b), the following should be added :—

"Provided in every case that the candidate shall have completed his sixteenth year before the opening day of the session in which he seeks admission."

II.—That in Chapter XIV, section 1, after sub-section (iii), the following should be added :—

"Provided in every case that the candidate shall complete his eighteenth year on the day fixed for the commencement of the examination."

III.—That in Chapter XV and Chapter XVIII, section 1, after sub-section (iii), and section 1, after sub-section (ii), respectively, the following should be added :—

“ Provided in every case that the candidate shall complete his twentieth year on the day fixed for the commencement of the examination.”

IV.—That in Chapter XVI, after section (2) and Chapter XIX, after section (3), the following should be added :—

“ Provided in every case that the candidate shall complete his twenty-first year on the day fixed for the commencement of the examination.”

V.—That in Chapter XVII, footnote, paragraph 1, at the end, in place of “ proper person for the doctor’s decree ” should be substituted the words “ proper person to supplicate for the doctor’s decree.”

\* The proposals were seconded by Mr. Jesse.

Pt. Sundar Lal characterised the matter as of very great importance and said there were many difficulties in introducing the change. He did not think that they should make it without very full discussion, and he proposed that the Meeting pass to the next business on the agenda. This was *carried*.

(iv) *Proposal* by Dr. Zia-ud-din Ahmad :—

That regulation 4, Chapter XV, of the University Regulations, be amended to read as follows :—

“ Every candidate for the B.A. degree shall be required to show a competent knowledge of three distinct branches of study :—

1. English.

2. Any two of the following branches:—

- (a) Classical Languages (*i.e.*, Latin, Greek, Hebrew, Arabic or Arabic with Persian, Sanskrit);
- (b) Mathematics;
- (c) Philosophy;
- (d) Political Economy;
- (e) History."

With the consent of the proposer and the Meeting, the consideration of the proposal was postponed till the November Meeting of the Senate.

(v) *Proposal* by Dr. Zia-ud-din Ahmad:—

"That Qazi Aziz-ud-din Ahmad Khan Bahadur may also be assigned to the Faculty of Arts."

The proposal was seconded by Mr. Towle and *carried*.

(vi) *Proposal* by Dr. Ganga Nath Jha:—

"That Chapter XIII, sec. 4 of the Regulations be amended to read as follows:—

At the Matriculation Examination, etc., etc.

- 1. English.
  - 2. Mathematics.
  - 3. History and Geography.
  - 4. An Indian Vernacular or a Modern European Language.
5. One of the following:—
- (a) A Classical Language.
  - (b) Physics and Chemistry with Drawing.
  - (c) Agriculture with Surveying.

I may add that the only important change proposed is to make an Indian Vernacular compulsory; the Modern European Language being added with a view to *non-Indian* candidates."

In this connection the Registrar also read G. O. No. 286, dated 24th February, 1911, asking the Senate to nominate three members to serve on the committee to consider the question of the revision of the scheme of vernacular education in schools.

It was *resolved* that Mr. A. Venis, Dr. Ganga Nath Jha and Kazi Aziz-ud-din Ahmad be nominated to serve on the Government committee, and that the discussion of the proposals be postponed.

(vii) *Proposal* by Dr. Hill:—

1. That with effect from the next Annual Meeting of the Senate, Chapter II, regulation 1 (d) be amended as follows:—

"Eight Fellows of the University, who shall be Heads of, or Professors in, Colleges affiliated to the University, of whom five shall represent the Faculty of Arts, two the Faculty of Science, and one the Faculty of Medicine, and

2. That with effect from the next Annual Meeting of the Senate, Chapter II, regulation 1 (e) be amended as follows:—

Seven Fellows, of whom two shall represent the Faculty of Arts, one the Faculty of Science, three the Faculty of Law, and one the Faculty of Medicine."

In this connection Mr. Jesse proposed the following amendment:—

“1. That Chapter II, regulation 1 (d) be amended as follows:—

Nine fellows of the University, who shall be Heads of, or Professors in, Colleges affiliated to the University, of whom six shall represent the Faculty of Arts, two the Faculty of Science, and one the Faculty of Medicine, and

2. That Chapter II, regulation 1 (e) be amended as follows:—

Eight Fellows, of whom three shall represent the Faculty of Arts, one the Faculty of Science, three the Faculty of Law, and one the Faculty of Medicine.”

In moving his proposal Dr. Hill said that he wished to point out that the only satisfactory way in which the representation of the Faculty of Medicine on the Syndicate could be effected, was by reducing the representation of the Faculty of Arts.

Colonel Manifold seconded the resolution.

Mr. Jesse proposed that the proposal be rejected. It was not that he felt that the Medical Faculty should not be represented, but the representation of the Colleges was being reduced. Supposing that they had a faculty of commerce and engineering, how were they going to get members of the Syndicate for them also? If they rejected the motion they might obtain powers to add by addition but not by substitution. The question was of considerable importance to the outside Colleges.

The Vice-Chancellor: If there are new Faculties there will be fresh legislation.

Mr. Jesse agreed, but pointed out that in that case Medicine should be treated on the same lines as engineering and commerce.

The Vice-Chancellor: Vacancies will occur on the Syndicate in November owing to the lapse of certain fellowships, and it will be possible then to elect two members of the Medical Faculty to take those places

Mr. Jesse: I would draw the attention of the members of the Senate to the fact that according to the calendar Sir George Knox and Pandit Sundar Lal will cause two of these vacancies.

In the course of subsequent discussion the Lord Bishop asked if it were necessary that the Faculty should be represented by two members. He should think that one should be sufficient.

A member: One member might not always be able to attend.

Dr. Ewing: The whole of the work will be centred at Lucknow and adequate representation would be arranged.

Dr. Hill: It is because the Faculty will be at Lucknow that I think its interests should be watched.

It having been decided that the second portion of Dr. Hill's proposal should be first considered, Mr. Robertson moved as an amendment that the Faculty of Arts should have three representatives and the Faculty of Law one representative.

Sir George Knox said that those were very important matters. He did not wish to stand in the way of the Faculty of Medicine, but proposals like those before them required no little consideration.

The second portion of the resolution was accepted and the Senate then proceeded to the next business.

(viii) *Proposal* by Dr. Ewing :—

“That the following be added as regulation 9, Chapter VI of the University Regulations :—

“The common seal of the University shall remain in the custody of the Registrar. It shall be the duty of the Registrar under the orders of the Senate to affix the common seal to Regulations, Degree certificates and other documents to which such common seal is required to be attached.”

The proposal was seconded by Dr. Ganga Nath Jha and *carried*.

In this connection the Registrar asked for permission to affix the seal to the agreement deed between the University and the Principal of the Law College.

It was *resolved* that the necessary permission be granted.

(ix) *Proposal* by Rev. Mr. Holland :—

“That, for the word “Licensed” in Chapter XI, sections 1 (b), 2, 4, 5, 6, 7, 9, 10 and 11, of the University Regulations there be substituted the word “Recognised ;” and

that, for the word “License” in Chapter XI, sections 9 and 12 of the University Regulations there be substituted the word “Recognition.””

The proposal was seconded by Dr. Zia-ud-din Ahmad and *carried*.

(x) *Proposal* by Dr. Ganesh Prasad :—

“That the list of affiliated Colleges, given on pages 431—433 of the University Calendar be declared to be incomplete and misleading.”

The proposal being ruled out of order, it was *dropped*.

IX.—With the permission of the Vice-Chancellor, the Registrar placed before the Meeting the following recommendations of the Syndicate made at its Meeting held on 9th March, 1911 (*vide* Resolution Nos. 47 (b) and (c)—

- (i) that the Hislop College, Nagpur, be permanently affiliated in Biology up to the B Sc. standard ;
- (ii) that the Canadian Mission College, Indore, be affiliated up to the M.A. standard in Philosophy.

It was *resolved* that in the opinion of the Senate the Colleges referred to above be recommended for affiliation in accordance with the recommendations of the Syndicate.

X.—With reference to Syndicate Resolution No. 24, dated the 31st January, 1911, the Registrar, with the permission of the Hon'ble the Vice-Chancellor, placed before the Meeting a letter, dated the 6th December, 1910, from the Secretary of the Congress of the Universities of the Empire, forwarding for consideration and comments a draft paper of subjects suitable for discussion at the Congress to be held in 1912, and asking for suggestions as to names of members of the Congress specially qualified to deal with topics of particular interest to the overseas Universities.

The Congress also asks that four representatives of the University may be appointed to take part in the Congress to be held in London in the year 1912 (2nd July, 1912).

It was *resolved* that a Sub-Committee consisting of the following gentlemen be appointed to deal with the matter :—

1. Sir George E. Knox.
2. Mr. J. G. Jennings.
3. The Hon'ble Pt. Sundar Lal.
4. Mr. P. S. Burrell with Sir George Knox as Con-  
vener.

XI.—With reference to Syndicate Resolution No. 62, dated the 9th March, 1911, Dr. Hill, with the permission of the Vice-Chancellor, proposed that the following Chapter be added to the University Regulations and the present Chapter XXV and the subsequent Chapters be renumbered accordingly :—

**Transitory Regulation until the Framing of Regulations for Degrees in Medicine and Surgery.**

#### CHAPTER XXV.

Insert after Chapter XXIV.

The Previous Examination for the degree of Bachelor of Medicine shall be open to any person who has passed the Intermediate Examination with Chemistry, Physics and Biology or such other examination as is recognised as equivalent to it, provided that he has after passing that examination, passed a further examination in subjects, if any, prescribed by the Faculty of Medicine, and has thereafter prosecuted a regular course of study in a College affiliated to the University in Medicine for a period of two years in subjects prescribed by the Faculty.

The proposal was seconded by the Hon'ble Colonel Manifold and *carried*.

In this connection the Registrar placed before the Meeting the following recommendation of the Board of

Inspectors which was adopted by the Syndicate in its Meeting of the 9th March, 1911 (*vide* Resolution No. 47 (f)), *viz.*, that—

“In respect of the application of the Medical College, Lucknow, for affiliation up to the M.B. standard the Board of Inspectors points out that up to the present time no degree in Medicine has been instituted and that therefore they are unable to deal with the application of the Medical College for affiliation; but the Board would recommend that special grace be sought of the Senate to enable the Principal of the Medical College to enter students as registered medical students from the commencement of the session.”

On the proposal of the Hon'ble Mr. de la Fosse, seconded by Dr. Hill, it was *resolved* that the special grace of the Senate be granted.

## APPENDIX A.

Minutes of Meeting of Sub-Committee appointed by Syndicate  
Resolution No. 158, dated 15th November, 1909.

## THE MEMBERS PRESENT :

Hon'ble Rai Sundar Lal Bahadur, C.I.E.,

Mr. J. G. Jennings, and

Sir George Edw. Knox.

Read resolution appointing Sub-Committee ; also copy of reports  
of several Boards of Examiners for 1909 and 1910.

The Sub-Committee from the fact that none of the members  
appointed on the Sub-Committee are experts in Practical Science  
have assumed that the question of *Viva Voce* Examinations in Practical  
work has not been referred to them. If they are expected to deal  
with this branch of the subject they recommend to the Syndicate that  
at least one member of the Science Faculty be associated with  
them.

While fully recognising that the *Viva Voce* Examination as at  
present conducted is far from perfect, the members present are satis-  
fied that the retention of it as one of the subjects of examination has  
a very beneficial influence upon both Professors and students in the  
preparation of their work and are unanimous in recommending that  
it be retained.

With a view to render the method of *Viva Voce* Examination  
more efficient, we recommend—

## A

that in the *M.A. Examinations* the *Viva Voce* Examinations continue  
as at present—and that there be only one centre, *viz.*, Allahabad.

But that in lieu of one Examiner as at present there be a Board  
consisting of two Examiners in each subject with instructions to act  
in concert and that one of the two be definitely appointed Chairman.

That the remuneration offered to the Examiners be at the rate of Rs. 2-8 to each Examiner calculated on each examinee subject to a minimum remuneration of Rs. 50 to each Examiner.

B

that in the B.A. and B.Sc. Examinations—

- (i) *Viva Voce* Examinations in English be conducted at the same centres as are fixed for written papers, viz., Allahabad and Nagpur.
- (ii) A Board of four Examiners be appointed and that of these one be definitely appointed Chairman of the Board.
- (iii) That the Board in consultation determine the lines upon which the Examination shall proceed; that the Examiners sit in groups of two, one member in each group to remain permanent member of that group and the second member be changed daily. This will, it is hoped, ensure a certain degree of uniformity. The Chairman to fix the hours of sitting and to take every available opportunity of holding sittings of the Boards.
- (iv) We recommend that the candidates be examined in groups not exceeding four in number, and that, as an ordinary rule, half an hour be allotted for the examination of each group.
- (v) That the number of marks allotted to the *Viva Voce* Examination be reduced to 25 and that the 5 marks thus saved be transferred and added to the number of marks now allotted to the Essay.

GEO. EDW. KNOX,

January 31st, 1911.

Convener.

(Sd.) SUNDAR LAL.

(,,) J. G. JENNINGS.

(,,) A. VENIS.

I need not reiterate that I am strongly in favour of abolishing the B.A. *Viva Voce* in English, which has always been more or less unsatisfactory.

### Report of Sub-Committee connected with Congress of the Universities of the Empire.

This was decided partly by circulation.

Mr. Jennings was not able to attend. The papers were sent to Mr. Burrell. His reply is attached. Upon receipt of it Pandit Sundar Lal and undersigned met regarding the letter from London, dated December 6th, 1910.

The Congress be thanked for the invitation.

It cannot at present be known for certain who will be in England and able to take part in the Congress provisionally fixed for 2nd July and four following days. In July Fellows of the University will be returning to their work in India. The question of representation should be brought before the Syndicate in July and an answer sent later.

Want of time and difficulty of arranging a meeting make it impossible for a joint meeting of Indian Universities to take place and consider and discuss subjects proposed for the Congress.

This Sub-Committee suggest that the following subject should be added: "Terms of affiliation of Indian with English and other Universities."

Regarding letter from University of Lahore we have no suggestion to make beyond this that

(1) The Secretary of State for India be approached with a view to facilities for meeting among the Indian delegates for a preliminary conference.

(2) The Calcutta University be asked to appoint a Convener of such meeting or meetings and that to enable him the better to call such meetings he be furnished with the addresses in England of all delegates from Indian Universities.

It was *resolved* that it be reported to the Syndicate that the Faculty is of the opinion, that Colleges in which Law classes have been closed must apply for affiliation if they wish to re-open those classes, and the Faculty would recommend that the Principal of St. John's College, Agra, be advised to transfer his Law Students, without delay, to a College affiliated in Law.

9. The Registrar placed before the Meeting the application, dated 8th September, 1911, of P. Kailas Nath Katja, enquiring the date on which the LL.M. examination will be held in 1912.

It was *resolved* that it be recommended to the Syndicate that the date for the LL.M. examination for 1912 be the same as that fixed for the Previous and Final LL.B. examinations, *viz.*, the 29th April, 1912.

10. With reference to an application forwarded by the Principal of the Law College, the Registrar enquired whether in Regulation 1, Chapter XXIII, of the University Regulations, "*two years after obtaining the said Degree*" is to be counted from the date of publication of the results or, from the date of receiving the degree at Convocation.

The Faculty was unanimously of opinion that the date of obtaining the Degree is to be counted from the date of the publication of the results.

XXIX.—The Registrar placed before the Meeting G. O. No. 536, dated the 12th April, 1911, forwarding a copy of Government of India, Foreign Department, letter No. 590—I. A., dated the 15th March, 1911, and asking that the letter may be laid before the Senate for consideration of the proposal therein made, that the Post Diploma of the Mayo College, Ajmer, be recognised as equivalent to the B.A. Degree for the purpose of entrance to the LL.B. Course.

It was *resolved* that the matter be referred to the Faculties of Law and Arts, and that the Registrar be asked to obtain information regarding the courses of the Examination for the Post Diploma of the Mayo College, Ajmer.

XXX.—The Registrar placed before the Meeting a letter, dated 8th July, 1911, from the Rev. Dr. W. Huntly withdrawing his name from among the members of the Faculty of Arts, as he does not now teach Philosophy in St. John's College, Agra.

The Rev. Dr. W. Huntly having withdrawn his resignation, it was *resolved* that the letter be recorded.

XXXI.—The Registrar reported the following vacancies, under Regulation 7, Chapter III, of the University Regulations, in the different Faculties of the University, *viz* :—

#### Faculty of Arts.

1. The Director of Public Instruction, C. P.
2. Mr. A. C. Chatterji, I.C.S.
3. M. Asghar Ali Khan, Khan Bahadur.

#### Faculty of Law.

The Hon'ble Mr. Aftab Ahmad Khan.

It was *resolved* that the three first named gentlemen be re-assigned to the Faculty of Arts, and that the last named gentleman be re-assigned to the Faculty of Law.

XXXII.—Applications under section 19 of the Universities Act of 1904, for permission to appear at the University Examinations of 1912, were granted—(*vide* Appendix G).

XXXIII.—The Meeting proceeded to consider the following proposals, under clause (iii) of Regulation 18, Chapter I, of the University Regulations:—

(i) **Proposal** by Dr. Zia-ud-din Ahmad:—

That Regulation 4, Chapter XV, of the University Regulations, be amended to read as follows:—

Every candidate for the B.A. degree shall be required to show a competent knowledge of three distinct branches of study:—

1. English.
2. Any two of the following Branches:—
  - (a) Classical Languages, *i.e.* (Latin, Greek, Hebrew, Arabic or Persian, Sanskrit);
  - (b) Mathematics;
  - (c) Philosophy;
  - (d) Political Economy;
  - (e) History.

Moving the adoption of the above proposal *Dr. Zia-ud-din Ahmad* said: Under the existing regulations candidates must take as a second subject, either a Classical Language or Mathematics. My proposal is, that this restriction should be removed, and that a candidate may choose to take with English any two subjects he may please. All I want is that a free choice should be given to candidates. We find that a large number of students take up Mathematics simply to avoid Classics. They are driven to Mathematics by the

regulations: they take the subject from no love of it. In these days when so many sciences have sprung up, I think it advisable to leave the choice to the student, and not act according to our prejudices. At Calcutta the choice is given, I may point out. The question of the difficulty of the time-table has been mooted, but I have found seventeen possible combinations in the time-table.

*Mr. Cameron* said: The resolution does not go as far as I would like it to go, but it will give freedom to the candidate and is a compromise between two extreme points of view. I have sometimes thought that in consequence of my action on the question I have been liable to a serious misunderstanding and have been regarded as an enemy of classical studies. That is a misunderstanding. I should have studied education to very little purpose indeed if I were not deeply conscious of the advantages of the classical course. But I am confronted with a practical problem. The B.A. Examination is of three subjects only. Having three subjects it does seem to me inadvisable in the extreme to make two of the three, language-subjects, especially when our students are so immature. It would be a suspicious course anywhere, but in India I am convinced that it is disastrous. The Indian student, like all students, has his own peculiar weaknesses and the one which perhaps most frequently crops up to embarrass us in our endeavours to educate him is the lack of a sufficient backing in the way of general knowledge, I am not proposing a course in general knowledge, but I see the weakness. I have felt it so strongly, that I proposed the abolition of the existing course and that students should be compelled to take one language-subject and should have two further subjects to go with it. The Senate, however, judged the proposal rather an extreme one. Here we have a middle course, which I suggest is a satisfactory compromise. The proposer has spoken from the point of

view of a practical hardship to the student who is driven into Mathematics and to the teacher of Mathematics, who is confronted with a rush of mathematical students who are quite unfitted to take up his subject, I would also bear testimony that the present course is working badly. I have had experience of the teaching in the days when it was possible to take Philosophy with History, Philosophy with Political Economy and Political Economy with History, and I think that the students were then of a better type than now. There need be no fear that Classics will suffer in popularity. In the old days to which we propose to return Classics was always the most popular option. There was a steady increase in the number of students taking Classics, and I do not think that there is any danger of the study suffering, if we allow an option such as is contained in the present proposal. We are equally zealous for a sound education, as for Classics, and when a reasonable compromise is set before us, I think we should be wise to accept it.

*Dr. Ganesh Prasad*: It has been said that Professors have complained of an influx of students into the mathematical classes. If the members of the Senate will look at the regulations for the Intermediate Examination, they will find that the examination in Mathematics is very stiff, and there is absolutely no chance of any student finding his way, so to speak, blindfolded into the mathematical class for the B.A. and B.Sc. Examinations.

Dr. Ganesh Prasad pleaded for classical studies. He proceeded: I venture to think that the proposal, were it accepted, would create a very cheap degree. It also would be

acting in a most unfair manner towards a very deserving class of students—those taking up for the B.A. degree a more difficult combination.

*The Rev. Mr. Crosthwaite* in supporting the motion said: A considerable number of students who have gone up for the Intermediate Examination, and passed it with difficulty in Mathematics, and then proceeded with Mathematics to the B.A. Examination, have been obliged to take Mathematics not having read Classics for some time. I think that this is a very real hardship, and that it does force into the mathematical classes, students absolutely unfitted for the study for which they enter.

*Dr. Tej Bahadur Sapru* thought that the change would be a desirable one. The student should be able to develop his natural bent. He added: I am well aware of the great advantages which a classical training bestows upon those who receive it. I am also assured that Mathematics give a good training. At the same time it seems to me that it is making an invidious comparison, to say that Mathematics must be so much more difficult than the study of Gibbon or any classical history. I would not be in favour of cheapening the degree, for there is nothing more compromising to the dignity of a University than to cheapen its degrees. One of the objects of this University, and of all Universities in India, is to discourage cramming. We must not turn out machines. We must allow the intellect of the students to expand. How can they grow, if the students cannot choose subjects?

*Mr. W. Jesse* supported the proposal. He said: It is said that if we accept this proposal we shall get a cheap degree. Will Dr. Ganesh Prasad define

a cheap degree, for it seems to me that he has made the assertion simply to show that certain subjects are inferior to other subjects. It is a mistake to maintain that one or two subjects are more difficult than others. It is highly probable that a man who is a great mathematician may fail in Philosophy, Political Economy or any other subject. I do not think that the cry of a cheap degree, could be maintained simply on the question of subjects. It is a question of the standard of the papers. I like to see the classical subjects taken, but I am told that the average student who takes the B.A. in Sanskrit is not a Sanskrit scholar. I see no reason why the number of classical students should drop. We shall be saved a certain number of candidates in the mathematical classes, who are now being driven into them.

*Dr. Ganga Nāth Jha* opposed the proposal and said : On this matter there is no need of going into reasonings and arguments. Everyone of us has formed his opinion, which no amount of reasoning will change. But being perhaps the only man present who is concerned directly with the teaching of Sanskrit I should be failing in my duty, if I did not lay before you certain facts and figures bearing upon the subject, over which I think it necessary to ponder before we vote one way or the other on this important question.

From the fourth Quinquennial Report on the progress of education in India (page 50), we learn that this University of Allahabad was established because—among other reasons—it was found that the Calcutta University was neglecting that special branch of oriental studies, for which these provinces had always been famous ; also from the speech of the first Chancellor addressed to the Convocation, we learn that the University of Allahabad was established for the avowed purpose of giving that impetus to the study of the oriental languages, which had been found wanting in the older

OF THE  
UNIVERSITY OF ALLAHABAD

Universities. And when in 1887-88 the new University laid down its new courses of study, it was acknowledged on all hands that a distinct advance was being made on the lines proposed (I am speaking for Sanskrit only), and I well remember that the second batch of graduates—of whom I myself was one—used to take pride in the fact, that our ordinary pass Sanskrit courses were equal to what had formed the 'Honours' course in Calcutta. This advance continued for some years—I believe so long as the good old arrangement continued, whereby every candidate for the Bachelor's degree had to take either Classics or Mathematics. In an unguarded moment, the University swerved from its avowed purpose, and began to give degrees for English and any two subjects that the candidate might choose—exactly as it is proposed to be done. What was the result of this? It soon became evident that Sanskrit had to fight for its very existence; and those who were in charge of that subject fell upon the device of making the courses of study easier and easier, just to keep it alive; by being taken up by even half a dozen candidates; and matters came to this pass that the Sanskrit courses for the B.A. Examinations of 1900, 1901 and 1902 were much poorer than the courses for First Examination in Arts of the Calcutta University. So the University went far away from the goal towards which it had started.

At this critical juncture the old Senate of the University awoke to its responsibility, and it was decided that from 1907 forward, the B.A. degree should not be given, unless the candidate had taken either Classics or Mathematics. Now what has been the effect of this on the number studying Sanskrit? In 1905 the number of Sanskrit students going up for the B.A. was only 47; and in 1907 the number was 119; and in 1910 it was 190.

So far as numbers are concerned. What effect has the new regulation had upon the courses of study? We have

been in a position to improve our courses of study, and our courses now compare very favourably with those of any other University; specially as we have introduced several new features into our system of classical studies, which have just begun to bear fruit, in the shape of a new interest in classical studies that has begun to be evinced by our young men. I repeat that my remarks are confined to Sanskrit. I do not know anything about other classical languages.

But the Fates have always been against us. On August 9th, 1907, a proposal, which was exactly like the present one so far as the bearing on classical languages is concerned, came before the Senate; but was negatived. Then again on March 11th, 1909, another attack was made on the same lines; but this time also the result was the same. Now, exactly at the same interval of two years, we have the same battery turned on us again.

It is for you, Sir, to decide whether or not it is right for the same or similar proposals to be brought up at short intervals. But the very fact that they are brought up, shows that there is a feeling in certain quarters that classical studies should go overboard. If we are accepting this, we are not only putting an end to the study of classical languages, but also stultifying all higher studies in the domain of History and Philosophy; the members in charge of these subjects have just begun to so co-ordinate their study with that of classical languages; as to make both sets of studies more living and useful.

If the Senate is of opinion that the proposal is acceptable, it may accept it; but it should do so with its eyes open to the following contingencies that are sure to follow:—

- (1) The number of students taking up Sanskrit will fall down to almost *nil*, at least so far as the United Provinces and Rajputana are concerned.

- (2) This will make impossible all higher study in History and Philosophy; and the University will not be in a position to help in the all-important work of the constructing of Ancient Indian History which ought to be the special function of an Indian University.
- (3) There will be an end to all attempt at improving classical studies.
- (4) Last, but by no means least, that we shall be betraying a sacred and solemn trust imposed upon us by the founders of the University.

*Mr. Jones* : I must differ that the object of the University is to foster one particular branch of study. The previous speaker has said that the Sanskrit Colleges will disappear if we accept this resolution. I do not think that that will be possible, when we have such famous teachers. I think that we must all agree, that we shall simply get rid of those students who think the taking of Sanskrit an easy way to a degree. Those who remain will take a real interest in Sanskrit, and the study of it will benefit.

*Dr. Ewing* : Facts compel me to side with the proposer. The frequent re-appearance of the proposal is itself demonstrative of the need that some change should be made. While I am not able to speak with absolute certainty, my feeling is that at the present time a student of Political Economy devotes as much time to work in Political Economy as in Persian.

*Dr. Ganesh Prasad* : I said History.

*Dr. Ewing* : . . . . When the new regulations come into force the possibility of taking either Mathematics or Classics in the B.A. Examination was decided on, in order that Intermediate B. course students might cross over from the Science side to the Arts side. Since then, a new situation

has arisen. At present in view of the popularity of the Medical College the classes are being filled up by students who wish to take Biology. They have already given up Mathematics and for these there is absolutely no way open, but to go on to the B.Sc. course. It will be impossible two years ahead, for the biological laboratories to provide room for them. We should in anticipation solve the difficulty by finding in this new situation an additional reason for the adoption of the excellent proposal of Dr. Zia-ud-din.

*Mr. Burrell:* I find the arguments in favour of the resolution unconvincing. I do not think that we should legislate for misguided students. The question is, what is the best kind of combination? I say that the best combination is English, Mathematics or Classics, and some other subject. I do not think that a student would get any training out of Philosophy for instance. I am convinced that many take it who are unfit to study it, and I believe that the same thing would apply to Political Economy. Then there is cramming. I think we should give a great inducement to cramming if we give two courses for cramming instead of one. This is impossible in a classical language. You cannot cram "unseens" or composition. Then there is the credit of the University. If you peruse the Minutes from year to year, you will see that the machinery of the University has undergone constant change. There is a constant tinkering with the working machinery of the University. I do not think that this is creditable. If any change does take place, I think that it should be at rare intervals and take the form of well considered reorganisation. It seems to me that there has been too much change without any principle.

*Mr. Mackenzie* supported the resolution and said: In regard to the question of the regulations being in a state of flux, I would venture to point out that the present regulation will have been in existence seven years, before any change takes place, if the proposal is carried.

*Rai G. N. Chakraverti Bahadur* alluded to the question of the admission of Allahabad University graduates to the Home Universities, if Classics were made an optional subject.

*Mr. de la Fosse* : We should be very circumspect before we make any change. The subject of the admission of Indian students is under discussion in more than one English University, and if we were to make any change just now, they might reconsider the proposals that have been made. Although there is much to be said for this proposal, for this reason, I would recommend the Senate not to pass it just now. Further, there is to be a Congress of the Universities of the Empire shortly. One of the subjects of discussion is the terms upon which candidates from one University shall be admitted to another. It is sought to unify the practice throughout the Empire.

At this juncture *Dr. Hill* moved that the next business should be proceeded with.

Sir George Knox seconded and *Dr. Hill's* resolution was carried by 28 votes to 24.

(ii) **Proposal by Dr. Ganga Nath Jha :—**

I.—That in Chapter XIV, section I, after sub-section (iii), the following should be added :—

“ Provided in every case that the candidate shall complete his eighteenth year on or before the day fixed for the commencement of the examination.”

II.—That in Chapter XV and Chapter XVIII, section 1, after sub-section (iii), and section 1, after sub-section (ii) respectively, the following should be added:—

“Provided in every case that the candidate shall complete his twentieth year on or before the day fixed for the commencement of the examination.”

III.—That in Chapter XVI after section (2) and Chapter XIX after section (2), the following should be added:—

“Provided in every case that the candidate shall complete his twenty-first year on or before the day fixed for the commencement of the examination.”

The proposal was seconded by the Hon'ble Sir George Knox and *carried*.

(iii) Proposal by Dr. Ganga Nath Jha:—

“That Chapter XIII, section 4, of the Regulations, be amended to read as follows:—

At the Matriculation Examination, etc., etc.

1. English.
2. Mathematics.
3. History and Geography.
4. An Indian Vernacular or a Modern European Language.
5. One of the following—
  - (a) A classical language.
  - (b) Physics and Chemistry with Drawing.
  - (c) Agriculture with Surveying.

I may add that the only important change proposed is to make an Indian Vernacular compulsory; the Modern European Language being added with a view to *non-Indian* candidates.”

In regard to this proposal, Dr. Ganga Nath Jha asked leave to withdraw it, in view of the appointment by the Government of a Committee to study the question of Vernacular education.

It was unanimously *resolved* that the proposal be withdrawn.

(iv) Proposal by Mr. A. G. Wright, Director of Public Instruction, C. P.:—

“That the subject of Indian Vernacular be made compulsory in the Matriculation Examination.”

Mr. Wright in moving his proposal said: To me it seems absolutely unsound to withdraw a candidate from the study of his own language at the age of thirteen. It may be said that this is a matter which affects the schools and not the University. The University controls the Matriculation Examination, which is not merely an Entrance Examination. A large number of students take the examination as a certificate of ability. I want a lad to have a workable knowledge of the language so that a simple examination will reveal, if he can read, write and compose in the vernacular, the subjects to be English into the vernacular the vernacular into English, and composition.

Mr. de la Fosse having described the operations of the Committee which has been formed under the auspices of the Government to go thoroughly into the whole question. Mr. Wright then asked leave to withdraw his proposal. This was agreed to.

(v) Proposal by Dr. Hill:—

That to Chapter XVIII 1 (i) there be added—  
“or after passing the Intermediate Examination of

the University of Calcutta, the Punjab, Bombay or Madras with the subjects Physics, Chemistry and Mathematics or Physics, Chemistry and *Biology* (Natural Science)."

In moving this proposal *Dr. Hill* said: The point of my proposal is, that, at present, students who have passed the Intermediate Examination of other Universities, are not entitled to appear at our B.Sc. Examinations, except with special permission. The desire is to permit students residing out of the province, to appear at the Examinations in exactly the same way as those who pass the Intermediate Arts and enter for the B.A. Examination.

Dr. Ewing seconded the proposal, which was *carried*.

(vi) **Proposal by Mahamahopadhyaya Dr. Ganga Nath Jha:—**

“That after section 10, Chapter X, of the Regulations on Inter-College Regulations, the following be added :—

‘ 11. No College shall send up for any examination candidates taking up a subject for the teaching of which it does not make adequate provision.’ ”

*Dr. Ganga Nath Jha* having withdrawn his proposal in favour of the following amendment by *Dr. Hill*, the latter was then discussed :—

“ No College shall be allowed to send up a candidate for any University examination in a subject in which he does not receive adequate instruction, in an institution duly affiliated to the University in that subject.”

Dr. Hill pointed out that as matters stand at present, there is a possibility of a College student being able to

appear at a University examination without<sup>g</sup> having received instruction in all subjects offered, in an affiliated institution.

After some discussion, in which it was argued that the motion was covered by section 19 of the Indian Universities Act, and by the University Regulations, the proposal fell through as the result of a motion to pass on to the next business.

(vii) **Proposal** by the Hon'ble Colonel Manifold :—

“That the following regulations be added as a new Chapter of the University Regulations to be included in the Calendar, together with amendments to the existing Regulations :—

## CHAPTER XXV.

4. The Hon'ble Mr. C. F. de la Fosse,  
with the Hon'ble Mr. de la Fosse as Convener, to consider and report on the advisability of introducing a different system of valuing the answer papers, in post-graduate examinations.

It was also *resolved* that paragraph (f) of the report be referred to a Sub-Committee consisting of the Hon'ble Pandit Sundar Lal and Rai G. N. Chakravarti, Bahadur, for re-drafting.

203. At the instance of the Vice-Chancellor, the Meeting proceeded to appoint a Sub-Committee of the following gentlemen :—

. The Hon'ble Rai Sundar Lal, Bahadur, and

The Hon'ble Mr. de la Fosse (*Convener*),

to consider the question of the establishment and maintenance of a "*Register of Graduates*," having regard to the provisions of section 7 of the Indian Universities Act of 1904, and the Amending Act of 1911.

204. The Registrar placed before the Meeting an application, dated 20th October, 1911, from Roy Indra Behari Saran, for a duplicate copy of his enrolment certificate and enquired what fee should be charged for the same.

It was *resolved* that a duplicate certificate be issued on payment of Rs. 2, and on the Registrar being satisfied that the original certificate is lost.

205. The Registrar placed before the Meeting a letter, dated 27th October, 1911, from Dr. A. D. Imms, Convener, Board of Examiners in Biology, suggesting that *after* the examination of 1912, each student taking Biology should be informed that he will be required to provide his own scalpels,

scissors, and forceps, together with one razor for use during the practical examination.

It was *resolved* that the suggestion be adopted.

206. The Registrar placed before the Meeting a letter, dated 1st November, 1911, from Mr. R. K. Sorabji, enquiring whether any arrangement has been made about the illumination of the University Buildings on the Durbar Day, and if so, asking whether the University will allot money for the illumination of the Law Hostels.

It was *resolved* that the Syndicate is of opinion that the University does not at present possess any buildings, which lend themselves to illumination, and that therefore no allotment has been made for the said purpose.

207. The Registrar placed before the Meeting a letter, dated 28th October, 1911, from Mr. Gardner Brown enquiring whether a student who passed his B.A. Examination can appear for the M.A. without obtaining the B.A. diploma.

It was *resolved* that a reply be given in the *negative*.

208. The Registrar placed before the Meeting the application of Miss Theodora Singh, student, 1st year class, Muir Central College, asking that she may be allowed to take English Composition instead of Translation from an Indian Vernacular for the 3rd English paper at the Intermediate Examination.

It was *resolved* that the application be not granted.

209. The Registrar reported for confirmation of the Syndicate the recommendation of the Director of Public Instruction, C.P., that the "Sinclair Prize" for 1911 may be granted to Pandurang Mahadeo Kasture of the Amraoti

High School, who stood highest in Sanskrit in the last Matriculation Examination.

It was *resolved* that the recommendation be confirmed.

210. The Registrar placed before the Meeting a letter from the Principal, Muir Central College, Allahabad, reporting that Dr. Imms, lately Professor of Biology in that College, has been transferred to Dehra Dun and that his work is being done by Major Cunningham, R.A.M.C.

It was *resolved* that the report be referred to the Board of Inspectors of Colleges.

211. The Registrar placed before the Meeting a letter, dated 4th November, 1911, from Mr. N. B. Mitra, Professor of Mathematics, Christian College, Allahabad, enquiring—

- (a) whether the words "A Master of Arts" in section I of Chapter XX of the University Regulations are to be interpreted so as to be confined to a Master of Arts of the Allahabad University ;
- (b) what are the conditions for admission to the M. Sc. Examinations in the case of graduates of Universities other than that of Allahabad ;
- (c) whether there is anything in the present regulations which would preclude the Syndicate from recommending or the Senate from granting, as a special act of grace, a prayer for permission to appear as a private candidate in (i) M.Sc. Examinations, (ii) D.Sc. Examinations in Mathematics.

It was *resolved* that the applicant be informed that—

- (i) "A Master of Arts" means Master of Arts of the Allahabad University ;

(ii) that the Syndicate is of opinion that the words "proceed to the Degree of Master of Science" in regulation 1, Chapter XIX, mean, may enter upon the courses prescribed for the Degree, and that consequently the candidate must fulfil the conditions prescribed in regulations 2 and 3 of the said Chapter;

(iii) the Syndicate will consider each concrete case when it arises.

In connection with these questions the Syndicate is of opinion, that Chapters XIX and XX require amendment, *e.g.*, the words in regulation 1, Chapter XIX, "proceed to the Degree of Master of Science," are extremely vague and apparently the regulation is in conflict with regulation 2 of the same Chapter. In Chapter XX it is by no means clear whether the expression "Master of Arts" should be confined to "M.As." of the Allahabad University. They appoint Dr. Hill and Mr. Ward as a Sub-Committee to consider the regulations in these Chapters and report at an early date what amendments are necessary. Dr. Hill to be Convener of the Sub-Committee.

212. The Registrar placed before the Meeting a letter, dated the 8th November, 1911, from Mr. Jesse, Principal, Meerut College, asking that the case of Mr. V. Tamma, B.Sc. and I Division Previous M.Sc. and now Professor of Physics in the Meerut College, requesting permission to appear for the Final M.Sc. Examination may be favourably considered.

It was *resolved* that the Principal, Meerut College, be informed that permission cannot be granted, unless the applicant produces a certificate signed by the Principal of a College affiliated up to the M.Sc. standard, certifying that he has attended a regular course of study at that College.

213. The Registrar placed before the Meeting the application of the Principal, Meerut College, for affiliation of his College in (a) Commerce and (b) Biology up to the Intermediate standard for the present, without prejudice to any future application.

It was *resolved* that the application be referred to the Board of Inspectors.

214. The Meeting proceeded to consider the report of the Sub-Committee appointed by Syndicate Resolution No. 126, dated the 8th August, 1911, to draft a reply to the letter from the Secretary of the Council of the Senate of the University of Cambridge making certain enquiries in connection with the question of the affiliation of this University with the University of Cambridge.

It was *resolved* that the report be approved, and the Registrar be instructed to communicate with the University of Cambridge on the lines indicated therein.

215. The Registrar placed before the Syndicate the following resolution passed by the Faculty of Science in its Meeting held on the 8th November, 1911, on the application of the Biology students of the Reid Christian College, Lucknow, forwarded by the Principal for favourable consideration :—

“That the matter be referred to the Board of Studies in Physics and Mathematics to report to the Faculty of Science at their next Meeting, and that the petition together with the recommendation of the Board of Studies in Biology should be placed before the Syndicate for their consideration, as to whether any special relief can be given this year.”

It was *resolved* that the Syndicate is not prepared to grant any relief this year.

In this connection the Syndicate wished to make it known that they are unable to entertain applications from students. Principals should receive and consider such petitions themselves and the applications should come from Principals on their own responsibility with a full expression of their own views on the matters contained therein.

216. With reference to Syndicate Resolution No. 207, dated the 19th November, 1909, the Registrar placed before the Meeting the scheme of marks proposed for the M.Sc. and D.Sc. Examinations, which have been approved by the Faculty of Science in its Meeting held on 8th November, 1911—(*vide* Appendix A).

It was *resolved* that the scheme of marks be approved.

217. The Registrar placed before the Meeting a letter, dated the 10th November, 1911, from the Principal, St. John's College, Agra, asking that the recognition of the Law classes in St. John's may be continued up to the end of the current session, when it has been already decided to close the classes.

It was *resolved* that the Principal be informed that, having regard to the recommendation of the Faculty of Law, the Syndicate cannot recognise that St. John's College, Agra, is affiliated in Law. They suggest that the recommendation of the Faculty of Law, that the students should be transferred to another College, be acted on, when the Syndicate will be prepared to consider favourably any shortage of percentage in the regular course of study, under regulation 6 (d), Chapter XXVII, of the University Regulations.

218. The Registrar placed before the Meeting a letter, dated the 11th November, 1911, from Dr. Ganga Nath Jha, suggesting the amendment of the form of certificates prescribed on pages 160, 164, 168, 172, 176 and 180 of the Calendar.

It was *resolved* that the consideration of the matter be postponed until the Syndicate Meeting in March 1912.

219. The Registrar placed before the Meeting G. O. No. 1445, dated the 10th November, 1911, asking that a sum of £75 may, at an early date, be placed at the disposal of the Commissioner of Agra from the Empress Victoria Readership Fund to meet the cost of the tablet which is being made by Sir Thomas Broch to be placed on the Queen Victoria Memorial Statue at Agra.

It was *resolved* that the Chief Secretary to the Government of the U.P. be informed that the money in the hands of the Syndicate was transferred to them for the express purpose of founding Readerships, to be called the Empress Victoria Readerships, and that the Syndicate feels, that it is not within its power to use or apply the funds for any other purpose.

220. Under regulations 9 and 10 of Chapter V of the University Regulations the nominations of Examiners for the Law and Arts and Science Examinations of 1912 were confirmed.

## APPENDIX B.

### Report of the Sub-Committee connected with the Congress of the Universities of the Empire.

The Sub-Committee recommend to the Syndicate that this University prepare a brief memorandum setting out their view of the conditions on which degree of Universities be recognised by one another. Any memorandum on the other four topics mentioned by the London Committee would for the present and for some time to come would so far as this University is concerned be a question of academic interest and have little, if any, practical value.

They also recommend the preparation of the pamphlet proposed. The necessary information under Heads I, III, X and XI could be furnished without much labour by the Registrar.

The information required under Head II could be obtained from the Colleges affiliated without much trouble to them, but they should be asked for it at once, as the pamphlet is required early in 1912.

The information under the remaining Heads would be like the celebrated chapter on Snakes in Iceland.

The editing of this pamphlet could be safely left in the hands of a small Sub-Committee of three, and as it should contain nothing original, need not be re-submitted to the Syndicate. The cost, too would not be great.

# CONVOCATION SPEECH.

## CONVOCATION NOVEMBER, 11th, 1911.

*The Hon'ble the Vice-Chancellor having declared Convocation open, His Honour the Chancellor admitted the Hon'ble Justice Sir George Edward Knox, Knight, and the Hon'ble Rai Sundar Lal, Bahadur, C.I.E., to the Honorary Degree of Doctor of Laws, and Mr. Arthur Venis to the Honorary Degree of Doctor of Letters. The Arts, Science and Law Graduates of the year 1911, were also admitted to their respective Degrees in the usual manner.*

His Honour the Chancellor (the Hon'ble Mr. L. A. S. Porter, M.A., LL.D., C.S.I.) then addressed the Convocation.

MR. VICE-CHANCELLOR. MEMBERS OF THE SENATE, LADIES  
AND GENTLEMEN.

In the Convocation speech which he delivered last year the Hon'ble the Vice-Chancellor informed you that great strides were being made towards providing the University with a habitation of its own. The new Senate Hall is now nearing completion and this is probably the last Convocation which will be held in the Muir Central College. While, however, we congratulate ourselves on the early prospect of having a home worthy of the Allahabad University, we must not, I think, forget our obligations to the Principal and other authorities of the Muir College, who have for so many years given us the hospitality of their hall and class rooms.

The new buildings, as you are aware, will, when complete, consist of a Senate Hall, a Law College and a Library. To these you may possibly find it necessary to add a hostel for Law students. At present the Senate Hall alone is under construction and until this is finished we do not know whether we shall be able to commence work on the other buildings. The sum actually subscribed comes to about 6 lakhs and there are promises of 60,000 more. But it is estimated that a further sum of at least  $2\frac{1}{2}$  lakhs will be required to complete the buildings. I trust that the public spirit of those in these provinces who take an interest in higher education will prove equal to providing that amount.

There is one another direction in which perhaps the University may have to appeal for outside help. One of the most important functions of the University is that of inspecting affiliated colleges. This system of inspection is necessary not only in the interest of the University, but also in the interest of the Colleges themselves, and above all of the students who attend these Colleges. The University requires some guarantee that the affiliated Colleges maintain a proper standard of staff and equipment. On the other hand, the Colleges, scattered as they are over a wide area, and many of them not in touch with other educational institutions, require up to date information as to what the requirements of the University are. And, finally, the interests of the students have to be safeguarded. Students, who enter Colleges which are not really competent to teach them, are not merely wasting their time, they are sacrificing their career. Hitherto, this duty of inspection has been performed, and cheerfully performed, by Professors lent for the purpose by certain Colleges. There can be no question that the work has been ably and conscientiously done. But the absence of a Professor from his

College, even for short periods at a time, involves some interruption of his lectures, and consequently some loss to his students. Should then the amount of inspection required materially increase, either owing to an increase in the number of affiliated Colleges or from any other cause, it may become necessary for the University to employ a special staff of inspectors of its own.

During the year the University has lost some of its most distinguished members. Among Honorary Fellows I regret to have to mention the names of the Right Hon'ble Sir Alfred Lyall, our first Chancellor, and Saiyid Husain Bilgrami. The death of Pandit Sudhakar Dwivedi has deprived the University of the services of a distinguished Sanskrit scholar, who combined with scholarship great breadth of view and a deep interest in all the questions of the day. We have also to regret the retirement of Pandit Adityaram Bhattacharya. He was one of our oldest and most distinguished fellows. He had, I believe, been a fellow since the foundation of the University. For many years he had been one of the chief controllers of higher Sanskrit studies, and had rendered most valuable assistance in other branches of University work. He carries with him into his retirement the good wishes and the esteem of his old colleagues.

The year has seen some notable extensions of University activity. The most important of these is the opening of the new Faculty of Medicine. You will doubtless remember that when Their Imperial Majesties visited India a few years ago as Prince and Princess of Wales, a sum of about 12 lakhs was subscribed by the public to found a Medical College in commemoration of that auspicious event. Government, in addition to giving a site, supplemented the subscriptions by a grant of about 20 lakhs in order to complete the scheme

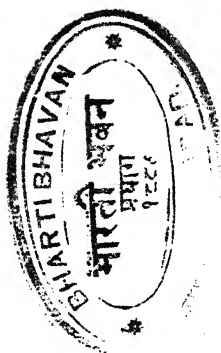

been received. These institutions represent an entirely new departure, the importance of which can hardly be exaggerated. We must remember that the continued prosperity of the province depends on the development of its industries, and that by far the greatest of our industry is agriculture. The need, therefore, for sound industrial training is obvious. We have had some lessons in the past on the sad results of neglecting this training. Our great indigo industry has been practically destroyed. Our sugar industry is now threatened, and these provinces produce more sugar than all the rest of India combined. There is further the question of the improvement of cotton. A great future, I trust, lies before these institutions, and if they develop as I trust they will into great provincial colleges, they will establish a strong claim to University recognition.

Another most important question is that of Vernacular education. The University is collaborating with the Government in examining the whole question, and specially the position of Vernacular in University studies. A joint committee has been appointed and has commenced work. So far as school courses are concerned the question presents little difficulty. Whatever else a boy is taught, he ought to be thoroughly grounded in his own vernacular; and he should not be allowed to pass the School Leaving Certificate examination or be permitted to enter the University unless he satisfies his examiners that he has acquired the necessary knowledge. The further question of the position of the vernacular in the University curriculum is more complex. Opinions will differ as to how far a course of Vernacular literature is indispensable to an Indian student. But there can be no doubt about one thing and that is that the neglect of the Vernacular as a written and spoken language is deplorable and must be checked.

One of the most striking features of our modern educational system is the great extension of hostels. We have at length realised that if we desire to obtain the best results from education, the influence of the school masters and of the professors must not be confined to the class rooms, and that outside school and college hours adequate supervision of the students is essential if they are to lead clean, wholesome lives, and become upright citizens. But the provision of hostels is of itself not enough. Satisfactory arrangements must be made for religious and moral instruction. Into the domain of religion, however, neither the University nor the Government can intrude. It is to the people themselves that we must look for help. In every denomination in this country there are numbers of spiritual teachers who are indifferent to earthly rewards, and whose sole aim is to devote their lives to the welfare of their fellow men. It is to them that I would appeal. The work is a noble one and worthy of their best efforts. Their own religion is at stake, and, as it has been truly said, the weakening of religious faith is one of the greatest calamities that can befall a man or a people.

So far this University has been the only one in the Province. Proposals are now before the public for the establishment of two other Universities. Whether as a matter of fact there is room in these provinces for other Universities, and whether denominational universities are themselves desirable things, are questions into which I do not propose to enter. I refer to the subject for one reason only and that reason is this. An eloquent advocate of one of those schemes has put forward the argument that another University is needed because the standard of the Allahabad University is too high and a number of bright young lives are being sacrificed because they cannot obtain a University

degree. In my opinion that argument is based on an entire misapprehension of the functions of the University. A mere degree in itself means nothing. If all that is desired is the right to put certain letters after one's name, there are I believe places where this right can be obtained for a pecuniary consideration. What is of value is the training and scholarship which the degree of a High-class University represents. It has always been the aim of the Allahabad University to maintain a high standard. If then other Universities with other aims come into existence, the duty of the Allahabad University is clear. It must be true to its tradition. I have no doubt that the Allahabad University will acquit itself of that duty as worthily in the future as it has in the past.
